MONA STORAGE SYSTEM

MONA

DESIGN CONCEPT

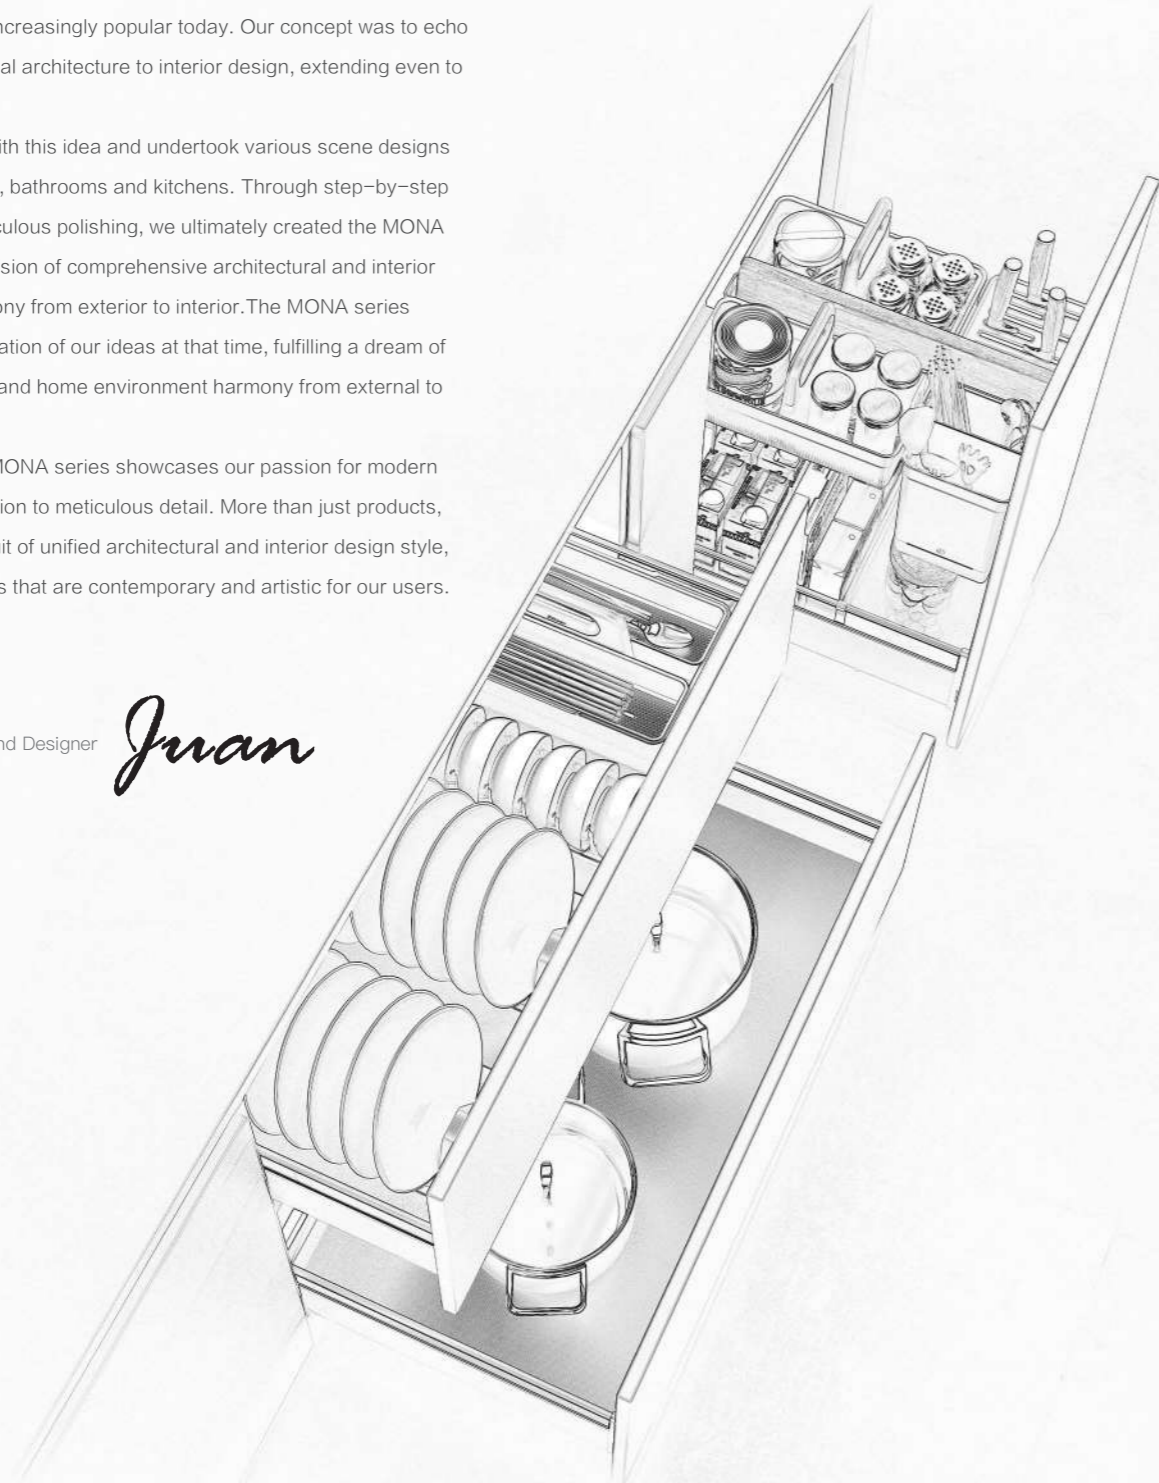

The origin of the MONA series products stems from a deep understanding and response to modern architectural styles characterized by stripes and textures, which are increasingly popular today. Our concept was to echo this style from external architecture to interior design, extending even to hardware products.

In 2021, we began with this idea and undertook various scene designs including wardrobes, bathrooms and kitchens. Through step-by-step refinement and meticulous polishing, we ultimately created the MONA series, fulfilling our vision of comprehensive architectural and interior environmental harmony from exterior to interior. The MONA series represents the realization of our ideas at that time, fulfilling a dream of holistic architectural and home environment harmony from external to internal aspects.

The creation of the MONA series showcases our passion for modern style and our dedication to meticulous detail. More than just products, they embody a pursuit of unified architectural and interior design style, creating living spaces that are contemporary and artistic for our users.
